We published, yesterday, what our Detroit entemporaries had to say, about the alleged hostility of the several Wiscousin Rail Roads, leading into Milwaukec, to the Detroit & Milwaukec Railway. To-day, we copy what the Chicago Triounce & Press says upon this pregnant theme .--We are quite content to publish it without any other comment than simply to ask the citizens of Milwaukee and of Wisconsin, to "read, mark and inwardly digest":

DETROIT AND MILWAUREE RAILWAY .- For the Defroit and Minwaure Railway.—For the last year or two the public have heard a great deal of the Detroit and Milwaukee Railway.—Many professed to believe that it would secure all the trade of Milwaukee and the entire country north and west of that city. Splendid steamers were to convey pazzengers and freight directly across the lake, and now we were to have a "cut of" that would make Chicago "exceedingly fear and shake." Nobody here, however, baid any attention to the matter, and several weeks ago the road was duly opened.—But it seems the persengers and freight prefer to come by the Chicago lines, thus insuring out thereins due persengues and regar precious to come by the Chicago lines, thus insuring speed and safety; and to account for this very singular preference, the Milwaukee and Detroit papers attribute it to the hostility of the railways west of Milwaukee. MARBLE FRONTS-GRAND RAPIDS GYPSUM,-Now that come of our husiness men are talking of putting up merble fronts to their buildings, it may not be out of place to call attention to a very beautiful and variagated material taken from the gypsum beds at Grand Repide, across the Lake, and recently introduced in the city of De-troit, where it has attracted much attention, and won the admiration of all who have examined it from the poculiar beauty and fineness of its composition. A Detroit exchange thus describes its natore and appearance :

The material is probably a superior quality of common phater, such as is known by geologists as scienite. The most perfect quality of the same material constitutes alabaster. It is beautiful to the common material constitutes alabaster. same material constitutes alabaster. It is beau-tifully endowed by every imaginable shade, and so closely resembles the finest maible that it is difficult to distinguish between them. A white variety, diversified by veine, and nearly trans-parent, forms a substance that is adapted to building fronts, and as such cannot be excelled by any cheep material in existence. There are, we are informed, several fronts made from this gyrsum in Grand Rapids, which are found to answer the purpose admirably.

Other varieties are adapted to various purposes admirably.

sea, such as making ornaments for centre tables, vases for martles, and paper weights. It is claimed that it has stability enough to admit of his being manufactured into mantles and toble tops.—
If such is the case it will be invaluable, as there is nothing except the choicest variegated mar-ble that can compete with it in beauty, and even that lacks the appearance of transparency which concliutes one of the chief attractions of this mankind, no paper will be issued to morrow material. A proposition has been made by a mercantile gentleman of this city to the owners at Grand Repids, which, if accepted, nill result in the ornementing of one of our central blocks with a front of imitation marble. PROCLAMATION. In the good Providence of God another year has parsed, and its memories and its fruits here own pathered up. Toward all mankind lie has exhibited, bundant mercies, and topon us he has showed an interior, and upon us he has showed animarable besings. Bed time and harvest come and are good, and the fat earth hath pieled ting and record after its kind, every tree and every plant the founds. His avenging rod has bee: withheld, and the pestitude that watering rod has bee; withheld, and the pestitude that watering rod has bee; withheld, and in pestitude that watering the has been astonished at outlined and starting successed and and starting successes and antiertenents. All trades, business avocations, professions and permains, have unet everywhere with the success thy sire deserved. In all things ommendable and unful and engal report, we have met the approach the lard and er god report, we have met the approach and engal and expense of the fatheren. THANKSGIVING DAY. In accordance with a custom most honored in

the observance, this day has been set apart by the Governor of the State as a Day of General Thanksgiving and Prayer for the many moroles vouchesied to us by Almignty God during the current year. The motives which should prompt a grateful people, acknowledging a Divine Prov. idence, to observe this day are well set forth in the Executive Proclamation. While the year has been one of much commercial distress and business derangement; while many, very many, have found their ordinary avacations interrupted and their means curtailed; we have, at least, been favored with a season of general health, and the bow of promise for the future is, bright us, or our dwellings; peace has been in all our rewarded; our State and City have grown apace and within a few months past two great enterprises of the first importance to all our interests have been pushed to a successful consummation. ORM:BY ELECTED.—James B. Ormsby, inde-undent candilate for assembly in this district, elected by a small majority. He is Republican in politics, and the Damocrats in this town who elected him can congratulate themselves upon the fact that they have belied to place the legis-lature in the hands of the opposition,—Har-quette Express, (Vem.)

The election of Mr. ORMSSY, from Marquette County, increases the Republican majority in the Assembly to eleven. By the wey, the Express, which is so disgusted with the Democrats in Marquette County, who voted for a Republican, was highly delighted with the Republicans in Waupacca, who voted for a Democrat. A FAIR OFFAKT .- The News thinks it very impudent in a Republican paper in Illinois, to pretend that many of the 5,000 "Administration votes' in that State were cast by Republicans in Counties where they were in a hopeless mi bodity. This claim is a fair offeet to that of the Stevens Point Pinery, a yoke fellow of the News', which insists that Douglas owes his energes in Illinois to "Republican votes," and that it is, in fact a "Republican" friumph.

THE WHITEWAYER ASSEMBLY DISTRICT,-This District was well represented in the last Legisleture by Mr. B. G. Nones, and has again made choice of a very competent man, Mr. M.S. Muz PRY. The Wanketha Republican says of him: N. S. Murphy, of Whitewater, is elected to the Assembly from that district. We are glad of it. He is a young man of ability, and will represent his district successfully and nobly.

Murphy will be one of the best men on the Assembly floor this winter. We are glad to see

the young man taking hold of the reins. A LIBER EXPOSED,-The New York Tribun-

which naturally belongs to us. Milwaukee & Mississippi Railrond, also, makes that thoroughfare as much, if not more, a feeder to Chicago, than to Milwaukse. Chicago people esteem Wisconsin trade so highly that they incour great expense to draw it to themselves, and are warranted in so doing by the bunefits which accrue to them from the trade. Mr. Schurz' Sprich — The speech of Carl Schurz, at the Republican celebration in Milwaukee last Thursday evening, will be found entire in to day's paper. It is an effort which does equal credit to the heart and head of its author; equal credit to the heart and head of its author; and should be read by every clize-u of the State. It is an elequent appeal to those who would be the leaders of the Republican party to beware how they attempt to lower its standard of principles or to compromise the masses of the party by their own unworthy conduct. The rank and file of the Republican party think for themselves, and cannot be led in any direction politi iars choose, like the sham democracy. The mall was brought an far as Hastings by the Goldon Era, and was forwarded from that point here. The first mail from St. Paul through to In Orosse, left Prices musically Low. Our assortment of Ladies', Gentlemen's and Ohlidren's Shoes, will be found very complete, sefficiently so, as to warrant the assertion that we can suit the most fastid retorday morning by express, as per contract of J.C. Burbans, Esq. A mail will also arrive here this evening, from La Groses. The stages of this new line are now making their regular daily trips, and we can cheerfully commend them to the public favor. For comfort, speed,

tous.

OFFICE OF THE DAILY SENTINGL, Wednesday Evening, Nov. 24, 1868. MANEY MATTERS,-The pork trade creates considerable all for currency, but the supply is fully equal to the de sciling rates there are M to M per cent. Here Exchange is selling at 1 per cent. Good husiness paper is readily negotiated at the banks at the usual discount. 10 per cent-Outside rates range from 1% to S per cent. per month according to reliability of securities, &c. MILWAUREE DAILY MARKET.

The market opened tolerably active this morning, at yesterday's figures for wheat and pork, but there was less enquiry for the former at the close, and a slight downward Having now in store one of the Largest and best celectendency was observable. Some very choice samples of
milling spring wheat sold at an advance on our last quotations, and the sales of shipping grades show a range of

STAPLE AND FANCY TO to 78c. The demand for dressed hugs continues activ at yesterday's prices, and a few heavy lots sold at better figures. Shelled corn is rather lower, but in other articles there is no change of importance. There was a gooattendance on 'Change to-day, and but for the frigid temperature of the room, there would probably have been onsiderable business transacted.
